ARCHIVES ITALIENNES DE BIOLOGIE

FONDÉES PAR A. MOSSO ET CONTINUÉES PAR V. ADUCCO
PUBLIÉES PAR G. MORUZZI
AVEC LE CONCOURS DU CONSIGLIO NAZIONALE DELLE RICERCHE

COMITÉ DE RÉDACTION

ALF BRODAL (Oslo) — RITA LEVI MONTALCINI (St. Louis)
M.G.F. FUORTES (Bethesda) — GIUSEPPE MORUZZI (Pisa)
YVES LAPORTE (Toulouse) — OTTAVIO POMPEIANO (Pisa)
CARLO TERZUOLO (Minneapolis)

TOME 108
1970

PISA
UNIVERSITÀ DEGLI STUDI

Rédaction: *Via S. Zeno, 31 – 56100 Pisa (Italie).*

Administration: « *Archives italiennes de Biologie* » – *Università – Lungarno A. Pacinotti, 43 – 56100 Pisa (Italie).*

Imprimerie: « *E. Ariani* » *e* « *L'Arte della Stampa* » – *50135 Firenze (Italie).*

TABLES DES MATIÈRES

FASCICULE 1, JANVIER 1970

1. The rôle of the male gonads in the peripheral inhibition of flashing in *Luciola lusitanica*. M. Brunelli, M. Buonamici, F. Magni and M. Viola-Magni . . . . . Pag. 1

2. Course and termination of the primary afferents in the cochlear nuclei of the cat. An experimental anatomical study. K. K. Osen 21

3. Differential block of conduction of larger fibers in peripheral nerve by direct current. M. Manfredi 52

4. Modulation of sensory projections in anterolateral column of cat spinal cord by peripheral afferents of different size. M. Manfredi 72

5. Presence of cell bodies of the afferents from the eye muscles in the semilunar ganglion. E. Manni, R. Bortolami and P. L. Deriu 106

6. Mesencephalic trigeminal nucleus and jaw muscle proprioception in reptilians. C. Desole, G. Palmieri and A. Veggetti 121

7. Electrically induced monosynaptic and polysynaptic reflexes involving the same motoneuronal pool in the unrestrained cat. S. Lund and O. Pompeiano 130

8. Vestibular influences during sleep. – VI. Vestibular control of autonomic functions during the rapid eye movements of desynchronized sleep. A. R. Morrison and O. Pompeiano 154

9. Further evidence for peripheral inhibition of flashing and for the rôle of the male gonads in *Luciola lusitanica* (charp.). P. Bagnoli, M. Brunelli, V. D'Ajello and F. Magni . . 181

Antonino Clementi (1888-1968) 207

FASCICULE 2, AVRIL 1970

1. Specific cytotoxic effect of 6-hydroxydopamine on sympathetic neuroblasts. P. U. Angeletti and R. Levi-Montalcini . . . . . Pag. 213

2. An apparatus for producing small-amplitude high-frequency sinusoidal stretching of the muscle. M. Morelli, L. Nicotra, C. D. Barnes, A. Cangiano, W. A. Cook jr. and O. Pompeiano 222

3. Inhibition of monosynaptic extensor reflex attributable to presynaptic depolarization of the group I*a* afferent fibers produced by vibration of flexor muscle. C. D. Barnes and O. Pompeiano 233

4. Presynaptic and postsynaptic effects in the monosynaptic reflex pathway to extensor motoneurons following vibration of synergic muscles. C. D. Barnes and O. Pompeiano . . . 259

5. Dissociation of presynaptic and postsynaptic effects produced in the lumbar cord by vestibular volleys. C. D. Barnes and O. Pompeiano 295

6. An analysis of the spontaneous activity of lateral geniculate neurons and of optic tract fibers in free moving cats. L. M. Mukhametov, G. Rizzolatti and A. Seitun . . . 325

7. The responses of lateral geniculate neurons to flashes of light during the sleep-waking cycle. L. M. Mukhametov and G. Rizzolatti 348

8. Sleep and environmental temperature. P. L. Parmeggiani and C. Rabini 369

9. Centrifugal cutaneous nerve discharges in the decerebrate phalanger, *trichosurus vulpecula*. D. Megirian 388

Analyses 400

FASCICULE 3, AOÛT 1970

1. The digastric reflex in the kitten and adult cat: paradoxical amplitude fluctuations during sleep and wakefulness. M. H. Chase . . . . . Pag. 403

2. Topographie des projections de la sensibilité viscérale sur l'écorce cérébrale du chat. – I. Étude des projections corticales du vague cervical chez le chat anesthésié au nembutal. M. Aubert et J. Legros 423

3. Topographie des projections de la sensibilité viscérale sur l'écorce cérébrale du chat. – II. Étude des projections corticales du vague cervical chez le chat anesthésié au chloralose. M. Aubert . . . . . Pag. 447

4. Inhibitory interactions between thalamic VPL nuclei of the two sides. A. Bava, E. Fadiga, T. Manzoni and M. Maricchiolo 462

5. Dynamic interactions in the retinal receptive fields and perceptual correlates. L. Cervetto, A. Fiorentini and L. Maffei 485

6. Succinylcholine-induced antidromic motor nerve and extraocular muscle responses in the cat. P. Bach-y-Rita 498

FASCICULE 4, DÉCEMBRE 1970

1. Long term cultures of dissociated nerve cells from the embryonic nervous system of the cockroach Periplaneta americana. J. S. Chen and R. Levi-Montalcini . . . . . Pag. 503

2. The effects of stimulation of the cerebral cortex on alpha and gamma motor units in cat hindlimb. J. P. Van der Meulen and C. Ghez 538

3. Electrical stimulation of the brain stem and subsequent sleep. C. J. Frederickson and J. A. Hobson 564

4. Longitudinal conducting system serving centrifugal cutaneous nerve discharges in the decerebrate-decerebellate phalanger, *Trichosurus vulpecula*. D. Megirian 577

Analyses 591
